condition
and value of your
special vehicle**

**Northern New
England's premier
car storage and
care facility**

FOR SPECIAL VEHICLES WORTH PROTECTING

Portland Motor Club has created a remarkable automotive garaging facility and experience that is designed to serve the most discriminating enthusiast both regionally and nationally.

Portland Motor Club's "marina" approach to fine vehicle storage and care allows members year-round access while providing the benefits and amenities of a club atmosphere. Portland Motor Club offers the kind of personalized attention and care both you and your vehicle deserve. Think of it as "YOUR GARAGE AWAY FROM HOME". And because we are professionals and this is what we do, perhaps we can take better care of your car than you can!

The building, which can accommodate up to 140 vehicles in storage, is new inside and out and incorporates the most advanced technologies in order to provide total peace of mind.

Portland Motor Club presents a thoroughly modern state-of-the-art facility that is completely secure, climate-controlled and perhaps the most energy-efficient structure of its type; yet the atmosphere and approach is old-fashioned in its commitment to customer service and attentiveness.

Please call for a tour by appointment and visit us on the internet at www.PortlandMotorClub.com where you can take a virtual tour, see many more photos and find out more about our facility and commitment to fine vehicle garaging and care.
