

# The Androscoggin County Medical Association Announces Availability of Financial Grants for Medical Students from Maine

Beginning immediately the County Association is offering awards of \$1000 to medical student applicants from Maine. As our funds are somewhat limited we plan to limit this offer to students who can demonstrate that they resided in the state prior to their enrollment in medical school. For similar reasons we cannot promise that each and every applicant will receive an award. These awards are free of any obligation and can be used for any expense the student deems appropriate. These awards are available to both MD and DO degree applicants.

It is our pleasure to support our young physicians in training.

To apply, please provide a brief synopsis of your background information, including duration of your residence in Maine, as well as your current medical school and date of expected graduation. If you'd like to provide any further information we'd be happy to review it.

Applications can be mailed to:

Gregory D'Augustine MD

39 Beau Drive

Greene, Maine 04236

Or email to: [greg.daugustine@gmail.com](mailto:greg.daugustine@gmail.com)

Best regards,

The Board of the Androscoggin Medical Association:

Gregory D'Augustine MD, Michael Eng MD, John Lonsdale MD, and Joel Olstein MD.
