

The Androscoggin County Medical Association Financial Grants for Medical Students from Maine

Updated March 2024

The Androscoggin County Medical Association offers awards of \$1000 to medical student applicants from Maine. As our funds are somewhat limited, we plan to limit this offer to students who can demonstrate that they resided in the state prior to their enrollment in medical school and have an intention to practice in Maine. For similar reasons we cannot promise that each and every applicant will receive an award. These awards are free of any obligation and can be used for any expense the student deems appropriate. These awards are available to both MD and DO degree applicants.

The Association is making available secondary \$500 grants to students who apply again, a year or more following an initial \$1000 grant.

It is our pleasure to support our young physicians in training.

To apply, please provide a brief synopsis of your background information, including duration of your residence in Maine, as well as your current medical school and date of expected graduation. Please include a comment about your career plans. If you'd like to provide any further information, we'd be happy to review it.

Applications can be mailed to:

Gregory D'Augustine MD
39 Beau Drive
Greene, Maine 04236
Or email to: greg.daugustine@gmail.com

Best regards,

The Board of the Androscoggin Medical Association:

Gregory D'Augustine MD, Michael Eng MD, John Lonsdale MD, and Joel Olstein MD.
