Planning		
Complete this section prior to engaging in learning for the preparation of the presentation. Consider what it is that you need to learn to successfully teach this content.		
	Knowledge Learned from Teaching	Skills Developed Through Teaching
Needs or Gaps	What do you hope to learn by preparing for and teaching this activity (pertaining to teaching or clinical knowledge)?	What skills do you plan to develop during this teaching activity (pertaining to teaching, clinical, or research practices)?
Strategy	How will you learn this material?	How will you build and practice those skills?
Reflecting		
Complete this section after the presentation to reflect on your learning and changes you will make.		
	Knowledge Learned from Teaching	Skills Developed Through Teaching
Outcome	What did you learn from teaching in this program?	How did your teaching, clinical, or research skills change as a result of teaching in this program?
Impact	How will you change your clinical practice based on what you learned?	What changes do you plan to make to your teaching approach in the future?
