	●		$3,000	1
			$3,500	2
			$4,500	3
Focus review on multiple practitioners with multiple charts	●		$3,500	2
			$4,500	3
Note: In addition to the above, if an administrative review is requested, an additional fee and reviewers may be involved.				
Out-of-State reviews may be $5,000 or more depending on whether or not travel is required for the reviewer plus other considerations. i.e., specialty reviewed, reviewer's fees, MMA's administrative time, etc.		●	The fee will be negotiated on a case-by-case basis.	
Out of state reviewer for a Maine review.	*Note: The fee will be negotiated on a case by case basis*			

Additional considerations:
a) Practices that participate in MMA's FQHC Membership Program will have a 15% discount applied to the first two reviews. For more information about this program, contact dpoulin@mainemed.com.
b) The fee for on-site reviews does not include travel time, overnight expenses, mileage, food, etc.
c) Expenses, other than the direct fee, will be submitted by the reviewer to the MMA.
d) Associated expenses (i.e. postage / shipping fees) could be an additional expense to the requestor.
e) For every 3 reviews ordered in a 12-month period, the fourth review will be offered at a 15% discounted rate (not to exceed $500)
f) Changes in the fee schedule may be changed from time to time. Any new fees will be communicated to the requestor before the process is initiated.
g) The fee will differ based on the number of reviewers.
h) **The Director for MMA's External Peer Review Program at her discretion may adjust some fees if the reviewer spends less or more time on their analysis.**
